U.S. Army Corps of Engineers Reference #NWS-2005-0502-SO, Ecology Order #5184

Dear Mr. Richey:

On March 19, 2012, the U.S. Army Corps of Engineers (Corps) permit for the above-referenced project expired. Based on this information, the Washington State Department of Ecology (Ecology) is officially rescinding the Section 401 Water Quality Certification (Order #5184), dated October 22, 2007, and its amendments dated November 5, 2007 and February 6, 2009.

If you decide to proceed with your project in the future, you must reapply for a 401 Certification at that time if your project requires a Corps permit.

If you have any questions, please contact Rebekah Padgett at 425-649-7129.

Sincerely,

Erik Stockdale, Section Manager  
Shorelands and Environmental Assistance Program
